**Subject:** Re: Draft Analytical Service request for Dimock

Gene,

I will pass this on to the lab to confer in light of the discussion on the call today. Also, how critical is Radon-222? I spoke with the contact at NAREL and have questions.

Fred Foreman, Chief  
Technical Services Branch

Subject: Draft Analytical Service request for Dimock

Fred,  
For review. This is the draft analytical services request which includes the parameters to be done by OASQA. I was waiting until we finalized the list of parameters to submit it. I received an e-mail from Stevie that the EPA Region 9 lab would be doing the DRO/GRO/Dissolved gases by RSK-175. I can add those to this draft or submit a separate request for the parameters to be done by Region 9.
